 Instruction and Learning (Masters of Science Degree)

Office: Cowan Hall Room 105A

The programs of Arts and Sciences prepare students to think, read, and write critically and to understand language and literature, philosophy, music, art, drama, English, economics, geography, history, math, Native American studies, political science, the sciences, and sociology. The liberal arts curricula present the historical and creative foundation of cultural heritage.

Advising Information

Students are encouraged to meet with their assigned advisors at the beginning of each semester to confirm their plan of study and make any necessary adjustments. Meeting with an advisor before registering for classes each semester allows students to plan schedules that will meet their needs and assist them in completing requirements in an efficient manner.
